Agricultural Economic Index

August 2026

Agricultural Production Index

151.39

↑ 2.08%

from August 2025 at 148.31

Key products with increased production ↑		Key products with decreased production ↓	
Durian	+68.66%	Longan	-21.54%
Rambutan	+3.89%	Cassava	-10.96%
Mangosteen	+497.45%	Eggs	-1.97%
Swine	+6.54%		
Broilers	+3.52%		

Agricultural Price Index

164.41

↑ 14.37%

from August 2025 at 143.75

Key products with increased prices ↑		Key products with decreased prices ↓	
Oil Palm	+24.15%	Swine	-4.76%
Cassava	+82.20%		
Longan	+88.32%		

Farmers' Income Index

248.90

↑ 16.75%

from August 2025 at 213.19

Reasons for the increase in the Farmers' Income Index

Agricultural Price Index increased by 14.37% particularly due to higher prices of oil palm, cassava, and longan

Agricultural Production Index increased by 2.08% driven by higher output of durian, rambutan, mangosteen, swine, and broilers
