Agricultural Economic Index

October 2026

Agricultural Production Index

151.13

Decreased by 0.22%

Compared with October 2025, which stood at 151.46

Major Products with Increased Production

- Longkong
- Pineapple

Major Products with Decreased Production

- Non-Glutinous Paddy
- Maize
- Rubber
- White Shrimp (Vannamei)

Agricultural Price Index

166.54

Increased by 17.46%

Compared with October 2025, which stood at 141.79

Major Products with Increased Prices

- Non-Glutinous Paddy
- Maize
- Rubber
- White Shrimp (Vannamei)

Major Products with Decreased Prices

- Longkong

Farm Income Index

251.68

Increased by 17.20%

Compared with October 2025, which stood at 214.75

Reasons for the Increase in the Farm Income Index

Agricultural Price Index increased by 17.46%

Driven by higher prices of non-glutinous paddy, maize, rubber, and white shrimp (vannamei).

Although Agricultural Production Index decreased by 0.22%

Production of non-glutinous paddy, maize, rubber, and white shrimp (vannamei) declined, while longkong and pineapple increased.

Table of Percentage Changes in the Agricultural Economic Indices (%YoY)

Items	2024				2025				2026			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Oct. 2026
Agricultural Production Index	-2.20	0.97	3.36	-0.77	3.55	8.49	4.46	-0.39	4.30	0.27	-0.12	-0.22
Agricultural Price Index	5.32	11.07	7.37	7.27	-0.96	-11.70	-12.86	-13.66	-8.51	6.10	14.15	17.46
Farm Income Index	3.00	12.15	10.98	6.45	2.55	-4.20	-8.97	-13.99	-4.58	6.38	14.01	17.20

Note: %YoY refers to the percentage change compared with the same period of the previous year. | Data as of 9 November 2026
